

Letter of Competency

To whom it may concern

We have used Jon Nettle for all our electrical and instrumentation requirements for over 10 years, in our heat treatment department. He has carried out many projects for us that required high levels of knowledge and experience in electrical installation, instrumentation, and software engineering. The work he has carried out for us has been completed in a timely and proficient manner and to a level of quality that SKF would expect.

Pete Haynes

Senior Project Engineer
